Notice of Coverage Under Construction Site Activity Storm Water General Permit

Dear NPDES Permittee:

We have reviewed your application and determined that storm water discharges associated with industrial activity from construction sites are appropriately covered by the attached General NPDES Permit issued by the Agency.

Your discharge is covered by this permit effective as of the date of this letter or as identified by the conditions of the permit. The Permit as issued covers application requirements, a storm water pollution prevention plan and reporting requirements.

Pursuant to the permit language, you must terminate your permit coverage once your construction project has been completed and the site is properly stabilized. Enclosed for your convenience is a copy of the Notice of Termination form. Failing to provide a timely Notice of Termination may cause you to owe additional fees.

This letter shows your facility permit number below the construction site name. Please save this number and reference it in all future correspondence. Should you have any questions concerning the Permit, please contact the Permit Section at the above telephone number and address.

Very truly yours,

*Alan Keller*
