Re: Nelson Meadows

Dear Mr. O'Brien:

As you are aware, the Village has requested several modifications to the engineering plans of the Nelson Meadows Subdivision which has been approved by the Village of Downers Grove. Also, please note that under the Village Ordinances, there is a 90-day time frame within which to have the Plat of Subdivision recorded after approval by the Village Council. As you are aware, there is still a view in process by the Village of Downers Grove with regard to the modifications that the Village of Downers Grove has requested and, therefore, the Plat has not been recorded at this time.

Please accept this letter as confirmation of the Village's agreement that a time frame for recording will not have an effect upon the approval of this Subdivision and that the time for recording the Plat of Subdivision will be extended as a result of the Village's reviews and requests for modifications.

We are still awaiting a response to the documentation we have delivered to the engineering department of the Village of Downers Grove. Once you have that response, please contact me with any further modifications that you require.

I would appreciate it if you would acknowledge the Village's agreement to this issue.

Sincerely,

WIEDEL, HUDZIK, RUSS & PHILIPP

James F. Russ, Jr.
