Mr. David Fieldman, Deputy Manager
Village of Downers Grove
801 Burlington Avenue
Downers Grove, IL 60515

Dear Mr. Fieldman:

We are writing you in behalf of our family concerning the Nelson Meadow subdivision development. While our neighbor has thoroughly addressed the concerns that the neighborhood shares, we want to specifically bring to your attention what we are particularly concerned about.

The two major issues that we want to be assured get done correctly are storm water management and safety.

Having recently moved into our home less than two months ago, the thought of having to possibly deal with flooding or silting due to improper protection measures and maintenance of storm water management was completely unexpected. Since we realize that there may be unexpected severe weather conditions that can cause flooding or silting despite every precaution, we are more concerned with conditions that can be avoided by frequent and thorough inspections of planned structures to handle storm water.

The issue of safety is of utmost importance to us, especially since we have two small children, Nathan (age 3) and Wesley (12 months). We would greatly appreciate monitoring to assure safe East-West pedestrian, bicycle and vehicle traffic on Jefferson Avenue at all times during the project.

Your support and understanding will be sincerely appreciated and valued.

Sincerely,

Andy Brummel

Maria Brummel
