

Dear Mr. Fieldman,

Please consider the fact that the walking path on the south border of the property will be closed during construction. I have tallied the amount of children and adults use the path on a daily basis. It would really cause a severe safety problem if it is barricaded. The Nelsons never restricted traffic on that path in the twenty years I have lived at 1117 Jefferson. The walking path easement has already been given to the public and to deny access would be a crime to everyone. We appreciate your consideration and help in this important issue. Thank You,

Mark +
